

BIOGRAPHY

Claudia Anderson

VP and Chief Continuous Improvement Officer

Claudia Anderson is Vice President and Chief Continuous Improvement Officer for TE Connectivity. In this role, she leads enterprise-wide TEOA and quality activities, as well as operations strategy, working to accelerate systemic process improvements that will enable TE to consistently exceed customer expectations.

Prior to her current role, she led the operations organization for the TE Automotive business in the Americas region and served as Vice President of Quality for TE's Transportation Solutions segment. Before joining TE, Claudia held a variety of positions in product engineering, manufacturing and quality at Ford Motor Company and Visteon Corporation.

She serves on the Board of North Carolina FIRST Robotics, a not-for-profit organization that is devoted to helping young people discover and develop a passion for science, engineering, technology, and math.

Claudia holds a Bachelor of Science in Mechanical Engineering from Purdue University, a Master of Science in Mechanical Engineering from the University of Michigan and a Master of Science in Engineering Management from the University of Detroit-Mercy.
