

“The Power to Solve” Designing and Building Battery Systems for Technology

Battery Pack Solution for a Wide Range of Applications

Tyco Electronics Battery Systems (TEBS) is the worldwide leader in the design and manufacture of custom battery packs and systems for any portable electronic device or stationary back-up power need. A battery system is much more than a collection of cells - it is the source of the power that enables your products to perform to their fullest potential. When you specify TEBS, you are getting a dedicated team of innovative designers and engineers, trained to develop the perfect solution within your power, space, weight, and cost parameters.

“Smart” Battery Solutions for Portable or Stationary Back-up Devices

At TEBS, we provide powerful solutions for a wide range of OEM applications, including:

- Cellular telephones
- Laptop computers and Smart Phones
- Power and Data back-up (mass data storage units)
- Digital still and video cameras
- Two-way radios
- Instruments
- Data acquisition
- Test equipment
- Medical applications
- Handheld POS and GPS
- Outdoor telecom UPS

The Tyco Electronics Advantage

Experience

A dedicated global team supporting battery pack R&D, design, and manufacture

- Over 30 years in design, testing and manufacturing experience of custom battery packs for major OEMs
- Full turnkey battery pack solutions to meet design, performance, and price criteria
- Full staff of scientist, engineers, and program managers

Result: Innovative designs to meet any need

Quality

Accredited lab for product safety and quality assurance testing

- UL accredited test lab certified for UL, DOT/UN, CE, IEEE and other required agency compliance testing and certification
- Fast response time on approvals
- Accurate testing and qualification

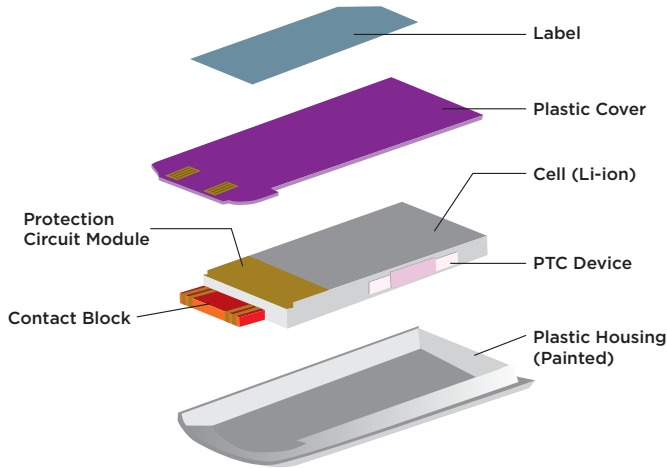

Result: Economic and accurate product safety qualification

Commitment

Tyco Electronics global commitment to research, development, and sourcing

- The resource "Power" to bring innovation, service and technology products to market sooner
- Independent packer with premier supplier relationships giving the ability to provide multiple battery cell sources
- Tyco Electronics purchasing leverage

Result: Flexible and cost-effective solutions on time and on budget
