## TYCO ELECTRONICS ANNOUNCES THE SUCCESSFUL TESTING OF THE AMP POWER 120 SERIES CONNECTOR

HARRISBURG, Pa. – Feb. 22, 2010 – Tyco Electronics announces the successful testing of the single-pole 120 Series connector. Tyco Electronics is formally submitting the product for UL 467 approval – the standard for grounding and bonding equipment for use in accordance with the Canadian Electrical Code, Part I, CSA C22.1, in Canada or the National Electrical Code, NFPA 70, in the United States.

The new rating increases the possibilities for the high current, wire-to-wire AMP Power Series products – making them usable in a variety of new grounding applications.

For more information on the AMP Power Series connector family or additional new developments, contact Tyco Electronics Product Information Center at 800-522-6752, or visit [www.tycoelectronics.com/help](http://www.tycoelectronics.com/help).

## ABOUT TYCO ELECTRONICS

Tyco Electronics Ltd. is a leading global provider of engineered electronic components, network solutions, specialty products and undersea telecommunication systems, with fiscal 2009 sales of US\$10.3 billion to customers in more than 150 countries. We design, manufacture and market products for customers in a broad array of industries including automotive; data communication systems and consumer electronics; telecommunications; aerospace, defense and marine; medical; energy; and lighting. With approximately 7,000 engineers and worldwide manufacturing, sales and customer service capabilities, Tyco Electronics' commitment is our customers' advantage. More information on Tyco Electronics can be found at <http://www.tycoelectronics.com/>.
