### **TYCO ELECTRONICS OFFERS FIBER-TO-THE-ANTENNA ODC PRODUCT --Licensed Agreement between Tyco Electronics and HUBER+SUHNER Group --**

HARRISBURG, Pa. – November 10, 2007 – Tyco Electronics has reached agreement with HUBER+SUHNER to become an alternative source for ODC fiber optic connector cable assemblies. The ODC connector and supporting optical cable is rapidly becoming the standard connector interface specified in 3G, 4G and WiMax Base Station remote radios and Fiber-to-the-Antenna applications.

With this agreement, Tyco Electronics, the worlds largest interconnect manufacturer, is able to expand the ODC connector brand globally while providing customers with identical high quality products, regardless of the manufacturing source. Tyco Electronics and the HUBER+SUHNER Group will work together to expand the ODC product line and applications to maximize long term customer benefit.

The ODC product range incorporates precision machined rugged brass housings with two or four optical terminations in both singlemode and multimode fibers. The environmentally sealed, fixed and free connectors are supported by a range of highly crush resistant, high tensile strength “tactical” style cables.

Tyco Electronics will commence supply of ODC cable assemblies January 2008, following compatibility and interoperability qualification with HUBER+SUHNER.

For further information on ODC product, please contact one of the following Tyco Electronics' individuals:

Americas & Asia – Nathan Tracy Ph: (1) 717-986-7546 or e-mail: [ntracy@tycoelectronics.com](mailto:ntracy@tycoelectronics.com)

Europe – Patrick Duquerroy -- Ph: (49) 61824538 or e-mail: [pduquerroy@tycoelectronics.com](mailto:pduquerroy@tycoelectronics.com)

## **ABOUT TYCO ELECTRONICS**

Tyco Electronics Ltd. is a leading global provider of engineered electronic components, network solutions, wireless and undersea telecommunications systems and services, with 2006 sales of US\$12.3 billion to customers in more than 150 countries. We design, manufacture and market products for customers in industries from automotive, appliances and aerospace and defense to telecommunications, computers and consumer electronics. With approximately 8,000 engineers and worldwide manufacturing, sales, and customer service capabilities, Tyco Electronics' commitment is our customers' advantage. More information on Tyco Electronics can be found at [www.tycoelectronics.com](http://www.tycoelectronics.com).
