TYCO ELECTRONICS ADDS SINGLE ROW HEADERS TO VAL-U-LOK CONNECTOR LINE **-- Headers provide low-cost, wire-to-board connections --**

HARRISBURG, Pa -- Feb. 22, 2010 -- Tyco Electronics has expanded its popular low-cost, wire-to-wire and wire-to-board VAL-U-LOK connector family with single-row, board-mount headers in both vertical and right-angle configurations. The connectors can be used in a variety of applications in the HVAC, vending, gaming and appliance industries. VAL-U-LOK connectors are intermateable with AMP-DUAC connectors and also with the Molex Mini-Fit Jr. series connectors.

The connectors, with 4.2 x 4.2 mm centerline, include header assemblies with pre-loaded contacts. The product may be installed on the printed circuit board (PCB) manually or automatically using robotic equipment. The single-row headers are available in three, four and five positions. All housings are polarized for easier mating with locking latches to help maintain reliable connections.

The product family, available in UL 94 V2 or UL 94 V0 flammability-rated nylon, includes contacts in brass or phosphor bronze with tin or gold plating. The RoHS-compliant product is UL-recognized and CSA-certified.

For more information on Tyco Electronics VAL-U-LOK connector system, contact your local Tyco Electronics Sales Representative or the Product Information Center at www.tycoelectronics.com/help .

ABOUT TYCO ELECTRONICS

Tyco Electronics Ltd. is a leading global provider of engineered electronic components, network solutions, specialty products and undersea telecommunication systems, with fiscal 2009 sales of US\$10.3 billion to customers in more than 150 countries. We design, manufacture and market products for customers in a broad array of industries including automotive; data communication systems and consumer electronics; telecommunications; aerospace, defense and marine; medical; energy; and lighting. With approximately 7,000 engineers and worldwide manufacturing, sales and customer service capabilities, Tyco Electronics' commitment is our customers' advantage. More information on Tyco Electronics can be found at <http://www.tycoelectronics.com/>.
