Innovative Solutions for Building Safety & Security

TE Connectivity (TE) is your building safety and security solution provider for electromechanical and electronic components. Whether you are designing a new system or retrofitting an existing system, this solutions guide will help you select the required components with easy access to additional online information through te.com. TE’s reliable, quick to install and industry-proven innovative product solutions will help you stay ahead of the trend for increased building intelligence.

</tbody>
</table>

1. May vary based on application and product selection
2. RT = Processing protection level according to IEC 68-12;
3. IP = Ingress protection rating according to IEC 60529
4. Solves the same problems as the applied interconnect
5. HiDNI – High Density Network Interface
6. Industry** – Meets industry specific standards

Innovative Solutions for Building Safety & Security

Fire Detection

Featured Products

1. Tactile Switches
   - Achieve system longevity with extended lifecycle design
   - Prevent potential liquid or particle contamination with IP67 sealed design
   - Save space with ultra-low profile design

2. Economy Power Wire-Applied Connectors
   - Achieve easy mating and unmating with positive audible latch
   - Prevent post misalignment with polarization tabs
   - Facilitate simple retrofit and design-in with intermateable market design

3. Polyolefin Heat Shrink Tubing
   - UL/SCA VW-1 rating supported by flame-retardant materials
   - Easily identify wires, cables and components using a variety of colors
   - Halogen-free polyolefin material prevents toxic emissions in enclosed areas

Video Surveillance

Featured Products

1. Communications & Signal Relays
   - Save board space with low profile design
   - Closely match relays to drive circuits with both standard and sensitive coil options
   - Achieve multiple switching capability with double pole configurations

2. CLOUDSPLITTER Connector System
   - Offer both Cat 5e signal performance and DC power in one RJ45 standard package
   - Provide surface mount capability in a Cat 5e connector
   - Achieve easy retrofit capability with acceptance of standard RJ45 plugs

3. Connectors for HDMI Standards
   - Support standard, enhanced or high-definition video and multi-channel audio in one cable
   - Provide secure electrical contact and smooth cable insertion/extraction with easy-to-use friction lock design
   - Gain ESD protection with fully shielded housing

te.com
**Access Control**

**Featured Products**

1. **Micro MATE-N-LOK Wire-Applied Connectors**
   - Maximize board space with single and dual row, vertical and right angle configurations
   - Prevent accidental unmating in high vibration applications with positive latches
   - Accommodate wire sizes from 30 to 20 AWG with a broad range of crimp, snap-in, pin and receptacle contacts

2. **Antenna Solutions**
   - Accommodate Wi-Fi, Bluetooth, ZigBee and many other frequency bands with broad product offering
   - Achieve rapid support with a range of readily available standard antennas
   - Optimize placement of standard antenna products using TE’s globally dispersed engineering support

3. **FASTON & Ultra-FAST Terminals**
   - Achieve higher contact spring properties with thermal stress relief process
   - Improve productivity and reliability through quick connect design
   - Gain design flexibility and ease of maintenance with broad portfolio

4. **Website**
5. **Catalog**
6. **Quick Reference Guide**

---

**Theft Detection**

**Featured Products**

1. **Micro-MaTch Board-to-Board & Wire-to-Board Connectors**
   - Prevent fretting corrosion and allow for a longer-lasting connection with contact spring design
   - Eliminate unnecessary movement in high-vibration applications with high force contact system
   - Support wide variety of design options with extensive product offering

2. **Universal MATE-N-LOK Wire-Applied Connectors**
   - Achieve design flexibility and polarization with interchangeable contacts
   - Improve reliability in high moisture environments with splash proof options
   - Maintain ultimate safety with egg-crated, finger-proof design

3. **AMP CT & Mini-CT Wire-to-Board Connectors**
   - Provide PC board self-retention with kinked connector design
   - Save space with miniaturized discrete wire interconnect
   - Offer design flexibility with IDC and crimp termination methods

7. **Quick Reference Guide II**
Innovative Solutions for Building Safety & Security

Intrusion Detection

Network Systems

Featured Products

High Performance Interconnects (HPI)
- Achieve low signal/power connections in a 1.0mm to 2.5mm centerline footprint
- Enable interchangeability to industry standard designs with square termination posts
- Prevent contact stubbing with polarized housings

Eurostyle Terminal Blocks
- Easy assembly and expansion with modular design and interlocking features
- Support repeated connect/disconnect cycles with robust clamping technology
- Gain design flexibility with broad product offering

AMPMODU Board-to-Board & Wire-to-Board Interconnect System
- Achieve high vibration performance and reliability with polarized latching receptacles
- Reduce termination time with optional insulation displacement contacts (IDC)
- Satisfy a broad range of signal needs with easy application and competitively priced diverse portfolio

Corcom Power Line Filters
- Meet emission standards with EMI/RFI protection
- Gain design flexibility with multiple termination options on high current power filters
- Solve challenges with custom design, testing and qualification capabilities

RJ45 Modular Jacks & Plugs
- Reduce electrical noise and gain up to Cat 5e performance
- Gain additional PCB space with low profile and narrow housing design
- Suitable for a broad range of applications with diverse product configurations

USB Connectors
- Support data transfer rates of standard USB 2.0 or the 10 times faster USB 3.0
- Optimize power efficiencies with improved device interaction and charging time
- Standard and customized styles and orientations available
