

ONE CONNECTIVITY PARTNER

for Safe, Reliable, High-Performing Overhead Power Grids

OUR OVERHEAD PORTFOLIO HIGHLIGHTS

CABLE TERMINATION SOLUTIONS

Our Raychem heat shrink and cold shrink terminations handle long-term electrical stress. Easy to install with high-reliability thanks to our material science.

COLD SHRINK TERMINATIONS
UP TO 42 kV

HEAT SHRINK TERMINATIONS
UP TO 123 kV (IEEE)

HEAT SHRINK TERMINATIONS
UP TO 123 kV (IEC)

CONNECTORS & FITTINGS SOLUTIONS

Our AMPACT connectors utilize Wedge Pressure Technology that is field proven for over 50 years to help you overcome the physical and electrical limitations imposed by traditional compression or bolted connectors.

HIGH TEMPERATURE TAPS

MINI WEDGE CONNECTORS

IN-LINE DISCONNECT SWITCHES
AND FUSE IN-LINE MOUNTS

Our Insulation Piercing Connectors are made for service connections. The blades are made of tin-plated copper or aluminium alloy allowing connections to aluminium and/or copper stranded conductors.

INSULATION PIERCING
CONNECTORS FOR LV ABC

INSULATION PIERCING
CONNECTORS UP TO 15 kV

GELPACT TAP/STIRRUP
INSULATION COVER

SMART GRID MONITORING SOLUTIONS

Our Kries fault current indicators (IKI-OH) are designed to detect and locate short circuits on overhead distribution lines, reducing the time of the outage and improving grid reliability.

IKI-OVERHEAD (IKI-OH)
UP TO 36 kV

IKI-OH RADIO
UP TO 36 kV

IKI-OH BUTLER
UP TO 36 kV

IKI-OH RADIO
UP TO 36 kV

WILDLIFE & ASSET PROTECTION SOLUTIONS

Reduce outages and fire risk in overhead lines while protecting endangered wildlife. Our Raychem portfolio includes systems of tubes, tapes, sheets, pre-formed covers and guards, to protect your power lines from wildlife interaction and vegetation clashing.

ANIMAL GUARDS

MEDIUM VOLTAGE
COVERS

BUSHING AND CONNECTOR
COVERS

INSULATORS & ARRESTERS SOLUTIONS

We offer a wide range of polymeric, porcelain and hybrid insulators and surge arresters. They are field-proven to protect your installation against weather-related outages.

SILICONE SURGE ARRESTERS
UP TO 36 kV

SILICONE & EVA INSULATORS
UP TO 72 kV

TRANSMISSION LINE
ARRESTERS UP TO 170 kV
