DWDM	- Optical Transport
Switched Digital Video	- FTTx
Wireless	Digital Video
- Distributed Antenna Systems	xDSL
- Wi-Fi	VoD
- WiMAX	VoIP
	Primary and Secondary Power

## Telecom Network Services Designed to Help Transform Your Business

TE Professional Services provides planning, implementation, and maintenance support for customers delivering voice, video and data over wireless, wireline, cable, and enterprise networks. Service providers, OEMs and enterprise clients leverage our experience, breadth of services and nationwide coverage to increase their profitability, competitiveness and agility in rapidly changing market conditions. We help organizations address fundamental challenges including:

- Creation of new and profitable broadband services
- Utilization of current network resources to maximize ROI
- Successful management of broadband services and network performance
- Preparation of future growth requirements

These services support our customers throughout the technology life cycle, integrating both TE and complementary product sets. TE is a single point of contact for a variety of multi-vendor, multi-technology and multi-service solutions.

## Benefit From an Experienced Industry Leader

TE has 75 years of experience in the communications industry. Over that period, we've developed the right mix of people, services and processes necessary for successful network integration. We employ experienced, full-time installation technicians and engineers, test and quality control technicians, and a customer service organization comprised of program and project managers. These extensive resources help us manage even the most complex deployment activities.

You will find TE products at the core of the largest carrier and enterprise networks in the world. As a global leader in optical, IP and wireless network technologies, our people have the first-hand experience to make any project a success. This established track record, combined with a strong geographic presence and state-of-the-art business systems, differentiates TE from its competitors and provides our customers with a powerful advantage.

## Augment Your Capabilities with Our Broad Range of Services.
