December 9, 2010

I am excited to announce that ADC Telecommunications is now part of Tyco Electronics. These two companies have a long heritage of providing innovative and high quality products for the world's leading telecommunications services providers. The combination of TE and ADC creates an even more capable company able to provide the ongoing innovation, products and services to meet the ever increasing needs of our customers in this industry.

Over the next several months we will be integrating the two companies, building on the best of what both have to offer. Until this integration is complete our customers, channel partners and supplier partners should continue to deal with the two companies independently, as you have in the past.

Our teams across the globe will keep you regularly informed to insure we don't skip a beat in meeting your needs.
