

## HDMI CONNECTORS

TE Connectivity's (TE) connector incorporating high-definition multimedia interface (HDMI) technology is an interface for consumer electronics products such as digital television, set-top boxes, and multimedia players. The product specification is usually controlled by the industry specification for HDMI standard (Specification Version 1.3a). HDMI technology supports standard, enhanced or high-definition video, plus multi-channel audio on a single cable.

### Key Features

- Simple, user friendly connector
- Full shielding for ESD protection and lead-free process available
- Available with or without panel flange
- 19 positions and 5 Gbps of bandwidth to support video and multi-channel audio in a single cable

### Key Benefits

- Replaces existing audio and digital cabling in one assembly
- Easy to use friction lock design provides secure electrical contact and smooth cable insertion/extraction

### Applications

- HD televisions
- Set-top boxes
- Telepresence systems
- Gaming applications
- Screens and displays
- Non display related 19P, 5 Gbps applications
