

WINTOTAL v7

WinTotal v7 is the latest version of TE Identification software, designed for simple and easy use when printing on TE heat-shrink sleeves, cable markers, and labels. This software series supports high quality wire and harness identification and label printing applications.

WinTotal v7, combined with TE product, printer and ribbon, creates a high quality identification asset that can be used in harsh environments. WinTotal v7 supports unicode, which allows for multilingual text to be printed on the label, using any or all of the languages required. Superseding WinTotal v6, WinTotal v7 lets the customer design and print on TE Ident products using Windows 10 computers.

APPLICATIONS

- Rail
- Aerospace
- Industrial
- Automation
- Panel Builders

KEY FEATURES

- Over 2,500 standard TE Connectivity (TE) Identification products pre-installed
- True print preview
- Extensive barcode and QR code support, including DoD UID

- Software can be supplied via USB dongle or license key.
- Multiple label design objects: text, lines, boxes, circles and images
- Clipart gallery with commonly used symbols
- Live database view in fields
- Global usage is possible with the availability of 13 different languages
- Unicode allows for multilingual text to be printed on the label, using any or all of the languages required.
- True print preview prevents mistakes when printing
- Advanced template design allows for the creation of graphics, logos, barcodes, lines, rectangles and circles

BENEFITS

- Easy and quick to use with 2,500 standard TE Identifications products pre installed
- Wintotal v7 offers a full set of print and design functionalities
