

TE'S RAYCHEM SCREENED T-CONNECTORS RSTI-58

FOR INTERFACE C, RATED UP TO 800A/24 kV

KEY FEATURES

- Screened connector does not need to be removed for over sheath testing
- Wide application range covers cable cross sections from 25 mm² to 300 mm²
- Easy access rear plug with capacitive test point
- Insulation made of highly modified silicone rubber
- Compact design supports use of double "T" connections inside standard terminal boxes
- Unlimited shelf-life

TE Connectivity's (TE) Raychem Screened separable T-connectors RSTI-58 are designed to connect single and three-core polymeric cables to medium voltage gas insulated switchgear and other equipment using bushings type "C" (EN50180/EN50181) specified for 630/1250A up to 24 kV.

Made of a highly modified silicone rubber and protected by a thin-walled, grounded outer conductive screen, TE's Raychem RSTI-58 connectors are equally suited for indoor and outdoor installation. Supporting a wide application range, the design incorporates one body and stress cone adapters to cover any cross-sections from 25 mm² to 300 mm². The overall cut-back dimensions are designed to take up minimum space in the terminal box.

TE's Raychem RSTI-58 connectors are equipped with a capacitive test point for determining whether the circuit is energized. This test point is protected by a conductive cap. After cable preparation and lubrication, the stress control adapter is simply slid into place, followed by the screened connector body. These two components can be installed under virtually any conditions. A separable mounting system ensures easy installation of the connector onto the bushing.

Our kits include high-performance multi-range mechanical or DIN compression lugs matching the design of the RSTI-58 connectors.

Customers can count on consistent, high quality products, driven by TE's proven innovation and backed by our extraordinary customer support.

TE's Raychem Screened T-Connectors RSTI-58

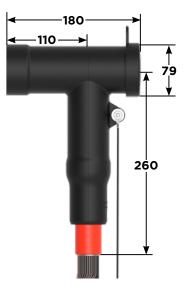

The RSTI-58 screened cable connectors meet CENELEC HD 629.1 S2 requirements, which includes BS, VDE and other international specifications.

| TECHNICAL DATA | | | | |
|---------------------------------------|-------------------|--|--|--|
| Cable insulation diameter range | 12.7 mm - 34.6 mm | | | |
| Connector cross section range | 25 mm² - 300 mm² | | | |
| Maximum system voltage | 24 kV | | | |
| Continuous current rating | 800A | | | |
| Basic impulse level | 150 kV | | | |
| Partial discharge at 2 U _o | < 2 pC | | | |
| AC voltage withstand. 1 min. | 57 kV | | | |
| DC voltage withstand, 15 min. | 76 kV | | | |
| Thermal short circuit, 1 s | 54 kA | | | |
| Dynamic short circuit | 125 kA | | | |

| PRODUCT SELECTION INFORMATION | | | | | | |
|--|-----------|-------------------------------|------|---------------------|--|--|
| Description | | Diameter Core Insulation (mm) | | Cross Section (mm²) | | |
| Aluminum | Copper | min | max | | | |
| with DIN compression lugs 12 kV | | | | | | |
| RSTI-5810 | RSTI-5830 | 12.7 | 23.4 | 25 | | |
