Straight connector with moulded insulation shrouds for service conductors

HUC connectors can be installed on all service cable types including stranded, solid, aluminium and copper. They are designed to cover a variety of straight joint applications for conductor sizes 4 - 35mm².

The moulded orange shrouds offer reliable and robust insulation thus reducing installation time and making live working easier and safer.

Features

- Suitable for both copper and aluminium conductors
- Reduced installation time
- Moulded shroud has petals at both conductor entry areas and centrally locates the connector for improved insulation.

Standards

- Connector designed to meet BS4579 and ER C79
- Moulded insulation shroud tested to 5 kV AC and 1 kV DC.
