

Small Stainless Steel Connection Head  
Shown with Quick Release Fitting

## MEAS CONNECTION HEADS

- Stainless Steel
- Aluminum
- Polypropylene
- Cast Iron

Connection Heads are used to provide a way to connect the sensor leads to the instrumentation that is used for monitoring or controlling the process. The leadwires from the sensor are connected to a terminal block mounted inside the connection head. In turn, the wiring to the monitoring equipment is also connected to the terminal block and that allows for the signal to be read.

Connection heads are available in a variety of different styles. Individual terminal blocks are also available in fiberglass or ceramic. Transmitters are available for mounting inside the connection head. We offer weatherproof and explosion proof rated connection heads.

### Features

- NEMA 4 Rated
- Custom Labeling Available:
  - » Standard with Measurement Specialties label
- Terminal Blocks:
  - » Fiberglass standard
  - » Ceramic available upon request

### Applications

- Motors
- Generators
- Process
- HVAC

### Dimensions

Stainless Steel and Aluminum (shown)

Cast Iron

## Dimensions

Polypropylene

Small Stainless Steel

## Ordering Information

Connection Heads	
Model	Style
690A	Stainless Steel
690B	Aluminum
690C	Polypropylene
690D	Cast Iron
690G	Small Stainless Steel
Model	Process Thread
4	1/2" NPT (Standard)
5	3/4" NPT
Model	Control Thread
4	1/2" NPT
5	3/4" NPT (Standard)
Model	Terminal Block
4	4-Place Fiberglass
6	6-Place Fiberglass
