

## ERNI MicroCon Connector

TE Connectivity's (TE) dual-row MicroCon connector with 0.8 mm pitch is ideal for industrial applications such as drives, robots, automation controls, automated guided vehicle, or other warehouse equipment. The connector combines high pin-count of up to 100 pins with highly miniaturized design, especially the small length.

The portfolio allows a high design freedom: 180° and 90° orientation, board-to-board distances from 5 mm to 19 mm, pin count from 12 - 100 and customized as well as configurable cable assembly offerings. These cable assemblies use ribbon cable with a size of AWG 34 - with that, the cable assemblies are very well prepared for miniaturized applications which nevertheless have high requirements.

Robustness and reliability are key: reinforced sidewalls of the male connector come along with coding and solder clips which supports a high degree of robustness. Blind-mate guide alignments with increased catch range helps ensure more secure mating. Dual-beam female contact and low contact resistance are key for high contact reliability. The wipe length of the contacts provides a reliable mechanical connection with tolerance compensation despite the small pitch of 0.8 mm. Also, the cable assembly comes with an integrated locking lever.

### BENEFITS

- Excellent fit for small but demanding applications
- High robustness and reliability helps minimize time required for mating and inspection in production and helps avoid signal interruptions / minimizes failures in the application
- High design flexibility due to breadth of portfolio of this space-saving connector
- Customized as well as configurable cables available

# MicroCon Connector

## FEATURES

- Excellent electrical and mechanical performance combined with high density connector
- Board-to-board portfolio in different configurations (straight and angled), different heights and different pin counts available
- Board-to-wire portfolio available with AWG 34

## APPLICATIONS

- Automation controls
- Automation sensors
- Robotics
- Warehouse automation

## MECHANICAL

- Pitch: 0.8 mm
- No of pins: distance needed between 12 - 100 possible
- Surface Mount Technology (SMT) termination
- Climate category: 55 / 125 / 56
- Operating temperature: -55 / 125 ° C
- Vibration, sine: 10 - 2000 Hz
- Contact disturbance: <1 micro second
- Shock half sine: 50 g
- Mechanical operation: >500 mating cycles
- Insertion and withdrawal force: typical value 0.5 N per contact
- Coplanarity <0.1 mm

## PRODUCT INFORMATION

Part number	Part description
<a href="#">294133-E</a>	Male - 12 pin - vertical - 1 mm
<a href="#">454927-E</a>	Male - 16 pin - vertical - 1 mm
<a href="#">454928-E</a>	Male - 16 pin - vertical - 2 mm
<a href="#">294136-E</a>	Male - 26 pin - vertical - 1 mm
<a href="#">294148-E</a>	Male - 26 pin - vertical - 2 mm
<a href="#">294149-E</a>	Male - 32 pin - vertical - 2 mm

## ELECTRICAL

- Current rating per contact: upto 2.3 A at 20 ° C
- Data rate: up to 3 Gbit/s
- Dielectric strength: contact - contact 500 V
- Contact resistance: <35 m ohms
- Insulation resistance: >100 M ohms

## MATERIALS

- Housing material
  - Insulation body: Liquid Crystal Polymer (LCP)  
Polyamid (PA)
  - UL94 V-0 flammability resistance
- Contact material
  - Copper alloy base material
  - Gold plated mating area
  - Termination area: Sn

## STANDARDS

- DIN EN 60068-1
- IEC 60721-3-1
- JDEC-J-STD-020
- IEC 60664
- IEC 60112
- IEC 60512
- IEC 60512-5-2
- RoHS compliant
