

SAS/PCIE GEN 4 (U.2/U.3) CONNECTORS

Facilitate optimal performance of
NVMe (Non-Volatile Memory Express)
storage solutions

Features

- Serial attached SCSI (small computer system interface) product
- 68 pin surface mount connector
- Meet SFF-8639 specification
- Provide 24 Gbps for SAS lanes and 16 GT/s for PCIe lanes
- Tri-mode storage support (SATA, SAS, and NVMe drives)
- Compatible to SFF-8630, SFF-8680 and SFF-8432 interfaces
- Support different footprints
- Offer angled lead-ins

Benefits

- Higher data transfer speed
- No need for board design changes when using drives with different protocols
- Easy implementation of high speed SSDs, HDDs and PCIe products
- No effort is needed on board design change when upgrading from Gen 3 to Gen 4
- Prevent misalignment

Applications

- Mainstream servers
- Enterprise storage systems
- External storage systems
- Processor and storage blades
- Mezzanine cards
