

PRODUCT SPECIFICATION

1. SCOPE

1.1 Content

This specification covers the performance, tests and quality requirements for the AMP* 2x3 Pos. Mark II Cable Connector. This connector is separable electrical connection device for mating with .025 square posts. When used in normal applications, the centerline spacing shall be at least .100 inch and the wire is specified for AWG30 or AWG 24.

1.2 Qualification

When tests are performed on the subject product line, the procedures in Alcatel specifications shall be used. All inspections shall be performed using the applicable inspection plan and product drawing.

2. APPLICATION DOCUMENTS

The following documents form a part of this specification to the extent specified herein. In the event of conflict between the requirements of this specification and the product drawing, the product drawing shall take precedence. In the event of conflict between the requirements of this specification and the referenced documents, this specification shall take precedence.

2.1 Alcatel specification
