

Figure 1

## 1. INTRODUCTION (See Figure 1)

This instruction sheet provides information on the assembly of a light pipe to a CXP receptacle housing.

### Assembly Procedures

1. Align and insert posts on the light pipe with the top of recessed slots in the housing.
2. Rotate the front of the light pipe down towards the front of the housing and press down lightly on the light pipe.
3. Allow the feet to snap over the detents on each side of the housing.

Assembly of a light pipe is now complete.
