

## MASS TERMINATE WIRE WITH MTA-100 & CST-100 II

By mass terminating wires, TE Connectivity's (TE) MTA connector system, based on insulation displacement contact (IDC) technology, is an efficient wire-to-board and wire-to-wire solution that can lower applied cost for your company. Both closed end and feed through types are offered. Additionally, MTA-100 headers can also mate with TE's CST-100 II crimp connectors to offer a further low cost wire-to-board interconnect solution. This robust portfolio of connectors is used in applications ranging from household appliances and fitness equipment to garage door openers, gasoline pumps and more. Browse through this select group of recommended products that can help keep your applications connected the way you intended. Don't see what you need? **CONTACT US TODAY!**
