

# LEADERSHIP IN INNOVATION AND CORPORATE RESPONSIBILITY

TE believes in the potential of all people, everywhere in the world. We support and respect human rights by conducting our business in responsible ways that provide opportunities to our employees, customers, and shareholders. We contribute to - and volunteer in - the communities where we work. We unleash our people's potential through development opportunities, safety and wellness programs, and inclusion and diversity initiatives. These efforts are integral to the success of our business and core to our values. These also enable us to attract and retain a talented and diversified workforce capable of accelerating innovation and achieving long-term growth.
