

## BIOGRAPHY

### Davy Brown

Vice President & Chief Technology Officer,  
Transportation Solutions

Davy Brown serves as the Vice President and Chief Technology Officer for TE Connectivity's Transportation Solutions segment since October 2024.

As the technical leader of the Transportation Solutions segment, Davy is responsible for the strategic direction of global engineering and product research and innovation within the Global Automotive, Industrial & Commercial Transportation, Sensors, and Global Application Tooling business units.

Davy joined TE in 2013 as Vice President and Chief Technology Officer of the Telecom and Wireless businesses and continued in that role after the merger and creation of Broadband Network Solutions (BNS). He then served as Senior Vice President, Research and Development of CommScope's Connectivity Solutions business after its acquisition of BNS before returning to TE in 2017. From 2017 until 2024, Davy served as the Vice President and Chief Technology Officer for TE Connectivity's Industrial Solutions segment.

After beginning his career at British Telecom Research Labs, he has held senior technology leadership and executive roles in various technology companies spanning the semiconductor, software, consumer electronics and telecommunications industries. He also co-founded and served as CTO of Trinity Convergence, a multimedia communications company.

Davy holds a Bachelor's degree in Computer Science from the University of Newcastle Upon Tyne, UK.
