SMART INNOVATIONS FOR MAJOR HOME APPLIANCES

Refrigerators are evolving rapidly, becoming smarter and more efficient. TE Connectivity's (TE) connector solutions resist the ingress of insulation foam to help ensure reliable connections, while sensors monitor proper cooling and energy consumption, and heat shrink tubing supports terminal and connector sealing and overall protection in refrigeration environments. Maintaining always-on connectivity in refrigeration is easy with TE.

- Reliable, rugged signal and power interconnects
- Heat shrink tubing supports sealing and protection within the refrigerator
- Space-saving relays
- High-quality, cost-efficient magnet wire terminations
- Quick-connect/disconnect terminals
- Sensors for temperature, humidity, force, and more

te.com/connectedhome
### Power Cord

**Connectors**
- Economy Power Connectors
- Power Double Lock Connectors
- Power Triple Lock Connectors

**Heat Shrink Tubing**
- Single Wall Flame Retardant (SWFR)
- Heat Shrink Tubing
- VERSAFIT Heat Shrink Tubing

**Terminals**
- Positive Lock Receptacles and Housings
- Ring Terminals

### Cameras

**Connectors**
- Economy Power 2.5 Connectors
- Micro USB 2.0 Connectors
- RAST 2.5 Connectors
- Signal Double Lock Connectors

**Heat Shrink Tubing**
- Dual Wall Flame Retardant Heat Shrink Tubing

### Control Board

**Connectors**
- AMP DUOPLUG Power Connectors
- Economy Power Connectors
- Grace Inertia 2.5 Connectors
- Micro-MaTch Connectors
- Power Double Lock Connectors
- Key Connectors
- Power Triple Lock Connectors

**Heat Shrink Tubing**
- Single Wall Flame Retardant (SWFR)
- Heat Shrink Tubing

**Relays**
- PCH Relays
- RZ Relays

**Terminals**
- FASTON Terminals and Housings
- PCB Terminals & Tabs

### Fan

**Connectors**
- Economy Power Connectors
- Power Double Lock Connectors
- RAST 2.5 Connectors
- Universal MATE-N-LOK Sealed Connectors

**Heat Shrink Tubing**
- Single Wall Flame Retardant (SWFR)
- Heat Shrink Tubing
- VERSAFIT Heat Shrink Tubing

**Relays**
- OJ Relays
- PB Relays
- PCJ Relays

### User Interface

**Connectors**
- AMPDU Connectors
- Economy Power 2.5 Connectors
- FFC Connectors
- FPC Connectors
- HPI Connectors
- Power Key Connectors
- Power Triple Lock Connectors

**Heat Shrink Tubing**
- Single Wall Flame Retardant (SWFR)
- Heat Shrink Tubing

**Terminals**
- FASTON Terminals and Housings
- Positive Lock Receptacles and Housings
- Ring Terminals

### Door Lock

**Connectors**
- Economy Power 2.5 Connectors
- Power Double Lock Connectors
- RAST 5 Connectors

**Heat Shrink Tubing**
- Single Wall Flame Retardant (SWFR)
- Heat Shrink Tubing

**Terminals**
- FASTON Terminals and Housings
- Positive Lock Receptacles and Housings
- Ring Terminals

### Lighting

**Connectors**
- Economy Power 2.5 Connectors
- Economy Power Connectors
- Power Key Connectors

**Relays**
- OJ Relays
- PB Relays
- PCJ Relays

**Terminals**
- FASTON Terminals and Housings

### Sensors

**Connectors**
- Temperature Sensors

**Terminals & Splices**
- FASTON Terminals and Housings
- Miniature Amplivar Pigtail Splice
- Siameze PCB Post Terminals
