A Complete Line Of Quality Tooling Solutions

About Application Tooling

Application tooling from TE Connectivity (TE) has been relied upon for more than 75 years to deliver high-performing, reliable connections in extreme environments. From crimping a terminal onto a wire or pressing a connector onto a board, our tooling, equipment, and field engineering services are counted on by customers across a range of industries and applications.

Tooling Portfolio:

Our tooling is supported by an established, experienced and responsive field service organization. TE Connectivity field engineers are located worldwide and are available to assist with on-site and remote service; selection and installation of new equipment; training; and technical support. Service agreements are available to provide protection and support for all your application tooling equipment.
