TE CONNECTIVITY AUTOMOTIVE HEADER FAMILIES FOR SIGNAL AND POWER

- **NanoMQS**
  - Orientation: 90° & 180°
  - No. of Positions: 2 – 10
  - Minimum Pitch: 1.27
  - Termination Method: SMD, Through-Hole

- **MQS**
  - Orientation: 90° & 180°
  - No. of Positions: 2 – 134
  - Minimum Pitch: 1.6
  - Termination Method: Through-Hole, Pin-in-Paste, SMD, Press-Fit

- **Generation Y**
  - Orientation: 90° & 180°
  - No. of Positions: 4 – 32
  - Minimum Pitch: 1.5
  - Termination Method: Through-Hole, Pin-in-Paste, SMD, Press-Fit

- **TH 0.25**
  - Orientation: 90° & 180°
  - No. of Positions: 10 – 40
  - Minimum Pitch: 1.5
  - Termination Method: Through-Hole, SMD

- **GET**
  - Orientation: 90° & 180°
  - No. of Positions: 5
  - Minimum Pitch: 1.8
  - Termination Method: Through-Hole

- **Micro Timer**
  - Orientation: 90° & 180°
  - No. of Positions: 42 – 111
  - Minimum Pitch: 4
  - Termination Method: Through-Hole

- **MULTILOCK**
  - Orientation: 90° & 180°
  - No. of Positions: 2 – 126, 3 – 36
  - Minimum Pitch: 2.5, 3
  - Termination Method: Through-Hole

- **AMP MCP**
  - Orientation: 90° & 180°
  - No. of Positions: 36 – 92, 4 – 16
  - Minimum Pitch: 4
  - Termination Method: Through-Hole

- **MCON**
  - Orientation: 90° & 180°
  - No. of Positions: 32
  - Minimum Pitch: 1.8
  - Termination Method: Through-Hole

- **AMP MCP 9.5**
  - Orientation: 90° & 180°
  - No. of Positions: 2 – 6
  - Minimum Pitch: 1.27
  - Termination Method: Through-Hole
