

TE Connectivity (TE) is leading the way in Smart Transportation, enhancing the efficiency and safety of transportation networks through high-quality connectivity solutions. The integration of advanced technologies is crucial for addressing urbanization and sustainability demands. TE's innovative solutions enable seamless communication among vehicles, infrastructure, and passengers, fostering a connected transportation ecosystem.

Applications

Roadways

Fleet Telematics

Public Safety

Transit Systems

| TE Components | Roadways | Fleet Telematics | Public Safety | Transit Systems |
|--|----------|------------------|---------------|-----------------|
| AMP CT, Mini CT, Micro CT Connectors | X | X | X | X |
| Antennas | X | X | X | X |
| DisplayPort Connectors | | X | X | X |
| Fine Pitch BtB Connectors | X | | | |
| FPC Connectors | | X | | |
| HDMI Connectors | | X | X | X |
| Micro Coax Connectors | X | X | X | X |
| Multi-Beam Connectors | | X | | |
| RF Coaxial Connectors | X | X | X | X |
| SMA/SSMA Connectors | X | X | X | X |
| Spring Finger Contacts | X | | | |
| USB Connectors | X | X | X | X |
