

# MULTI-BEAM Pro Power Connector

Optimized for 12-20kW Power Supply Units

## Key Features and Benefits:

- High-performance power delivery with up to 185A per individual power contact
- Minimizes space and power consumption with high signal density
- Modular design with scalable configurations and flexible integration
- End-to-end solution of mated connectors and cable assemblies available

## MULTI-BEAM Pro Selected Products

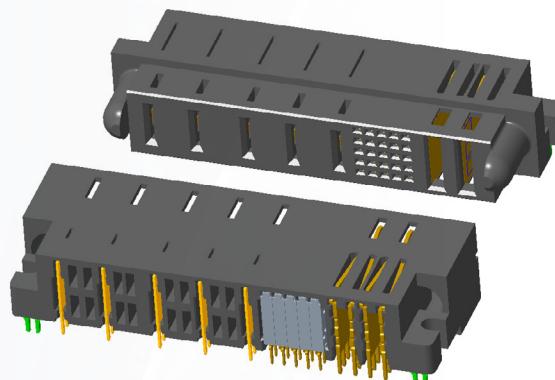

Plug	1-2493502-4	1-2493502-8
Receptacle	1-2493507-4	1-2493507-8
Configurations	3P+24S+3LP	3P+3P+30S+3LP

# MULTI-BEAM Plus Power Connector

Optimized for 8-10kW Power Supply Units

## Key Features and Benefits:

- Enables efficient power delivery for AC to HVDC and HVDC to LVDC Power Supply Unit connections
- Delivers robust performance with up to 140A per individual contact
- Ensures long-term reliability and quality for up to 250 mating cycles
- End-to-end solution of mated connectors and cable assemblies available

## MULTI-BEAM Plus Selected Products

<b>2334543-3</b> 8P, right angle plug
<b>2334522-1</b> 2P+2P+5S, vertical plug
