

LINX TECHNOLOGIES/TE COMPETITIVE REFERENCE GUIDE

Introduction

Linx “Technologies” market-leading RF portfolio is now part of TE Connectivity (TE), expanding TE’s supply chain footprint as we continue to expand our go-to-market capabilities in IoT markets. The products from Linx Technologies, consisting of antennas, RF wireless connectors and accessories, and RF modules are all available on [TE.com](https://www.te.com).

Antenna

Linx Technologies (Linx) brought to TE a broad selection of antennas for a wide variety of applications. For customers with specialized needs, custom antennas and design services are available along with simulations of antenna performance to speed development.

RF Wireless Connectors and Accessories

Linx carries a variety of RF wireless connectors, cable assemblies and battery holders. Custom cable assemblies are available for customers with specialized needs.

RF Modules

Linx RF modules and antennas are the only RF components you need to add wireless features to your product. The modules are already tested, so you don't need to spend time tuning discrete components or setting registers which saves you the hassle and expense of engineering RF functionality from scratch.

Disclaimer

Below, we have compiled a simple reference guide for you to use as a starting point for assessing competitive products. These references are for convenience only and do not assert or imply that references to competitive items are an exact equivalent to TE products in quality, specifications, approvals or features. TE disclaims any warranties and representations in association with use of this reference guide and users are advised to undertake appropriate analysis to confirm that any TE part number is effective, appropriate and compliant for any given application or use case.

TE Connectivity, TE, TE connectivity (logo), Linx and Linx Technologies are trademarks owned or licensed by the TE Connectivity Ltd. family of companies. All other logos, products and/or company names referred to herein might be trademarks of their respective owners.

The information given herein, including drawings, illustrations and schematics which are intended for illustration purposes only, is believed to be reliable. However, TE Connectivity makes no warranties as to its accuracy or completeness and disclaims any liability in connection with its use. TE Connectivity's obligations shall only be as set forth in TE Connectivity's Standard Terms and Conditions of Sale for this product and in no case will TE Connectivity be liable for any incidental, indirect or consequential damages arising out of the sale, resale, use or misuse of the product. Users of TE Connectivity products should make their own evaluation to determine the suitability of each such product for the specific application.

TE Connectivity warrants to the original end user customer of its products that its products are free from defects in material and workmanship. Subject to conditions and limitations TE Connectivity will, at its option, either repair or replace any part of its products that prove defective because of improper workmanship or materials. This limited warranty is in force for the useful lifetime of the original end product into which the TE Connectivity product is installed. Useful lifetime of the original end product may vary but is not warranted to exceed one (1) year from the original date of the end product purchase.
