TE’s Raychem CABLE CLEATS
For Single, Trefoil And Dual/Quadrofoil Applications
ADVANCED CABLE CLAMPING SYSTEM FOR LOW, MEDIUM AND HIGH VOLTAGE APPLICATIONS

For more than 60 years, TE Connectivity (TE) has supported the delivery of power through well-known product lines like TE’s Raychem in a wide array of industries, applications and environments. TE has a proven track record of advanced materials, technical innovation, reliable performance, ease of installation and technical support.

The TE’s Raychem Cable Cleats are designed and tested according to IEC 61914 providing high resistance to electromechanical forces during short circuit conditions. The included stainless steel hardware and the self-extinguishing and UV stabilised materials result in outstanding performance even under harsh environments.

Our cable cleats are available also in stacked configuration to fit into tight spaces.

PRODUCT FAMILY OVERVIEW

![Single Cable Cleats](image1)

**Single Cable Cleats**

- Wide application range allows cable diameters up to 135 mm
- Flat mount version available for installations on a plate
- Ideal for applications with higher levels of short circuit

![Trefoil Cable Cleats](image2)

**Trefoil Cable Cleats**

- Application range from 26 mm to 80 mm
- Center hole at the base eases pole installation
- Stackable version available

![Dual and Quadrofoil Cable Cleats](image3)

**Dual and Quadrofoil Cable Cleats**

- Application range from 26 mm to 80 mm
- Stackable design optimizes space
- Available as dual or quadfoil/stacked version

POWERING EXTRAORDINARY CUSTOMER EXPERIENCES

When you partner with TE Connectivity, you are getting more than reliable products. Our team can design tailor made schematics and specify technical details for custom cable cleats layout that suits your specific needs.
ROBUST DESIGN FOR INCREASED CABLE PROTECTION

Single Cable Cleats

Integral stainless steel clamping plates to ensure consistent clamping pressure on both sides

Range taking elastomeric inserts, minimise stock holdings, yet maximise performance

Range accepts cable diameters from 15 mm - 135 mm

Elastomeric inserts can accommodate round, oval or “tri-round” cable profiles

Bottom half of clamps can be mounted prior to cable fitment

Impact resistant, halogen-free and UV stabilised materials

Slider plate design maximises clamp performance when under shock load

Trefoil Cable Cleats

Optimised for harsh environments with stainless steel hardware

Easy product identification. Smooth aesthetics which improve overall strength while in operation

Self-extinguishing and UV stabilised polymer materials

Captive elastomeric inserts for increased cable protection and containment

Available in slider plate, strut nut and pole mount configurations

Also available in double/stacked configuration (-DOUB) and without hardware (-CLAMP-ONLY)

Example 1: CCD50-60-SN-M12-DOUB for a dual cable cleat in a stacked configuration (quadrofoil) with M12 bolts and Strut nut mounting.

Example 2: CCT50-60-M12-CLAMP-ONLY for single cable cleat for M12 bolts (not including hardware)

---

**Pole Mount Version**

Centre mounting hardware not provided.
