

UNSEALED INTERCONNECTION SYSTEM

FOR INDUSTRIAL & COMMERCIAL TRANSPORTATION

TERMINALS AND CONNECTORS

WE GO TO EXTREMES TO MAKE SURE EVERY CONNECTION COUNTS.

TE Connectivity (TE) Industrial & Commercial Transportation (ICT) is a reliable provider of solutions for even the harshest environment. With a focus on employee expertise and durable products, we deliver the solutions and support our customers can count on.

2,000+ Employees

10,000+ Customers

20,000+ Different Parts

Years ago, tractors, construction equipment, trucks, and boats had simple electrical systems that might have included electrical starting and a basic lighting package. Today, ECUs, joysticks, fuel-efficient engines, LED lights, and CAN systems are standard equipment. The need to protect these sensitive electrical systems from vibration, moisture, dust, dirt, salt, and airborne particles has never been greater. TE Industrial & Commercial Transportation is a leader in supporting today's increasingly complex and sophisticated equipment and applications.

Our comprehensive line of products includes an unparalleled portfolio of rugged sensors, terminals, connectors, relays, and hybrid electric mobility solutions. These solutions are designed to withstand harsh environmental conditions and to help vehicles operate safer, cleaner, and smarter.

Our solutions adapt to virtually any harsh environment application, including:

Motors and Gearboxes

ABS/EBS Brake Units

Telematics Units

Sensors

Wire-To-Wire Coupling at the Chassis

Infotainment Applications

UNSEALED INTERCONNECTION SYSTEM FOR INDUSTRIAL & COMMERCIAL TRANSPORTATION

TE Connectivity's Unsealed Interconnection System for Industrial & Commercial Transportation is the ideal solution for customers in search of unsealed, rugged and flexible connectors — specifically designed for inside-cabin, bulkhead and control-unit applications of on- and off-road vehicles. Adopting TE's field-proven AMP MCP 1.5K, 2.8, 6.3, 9.5, and PCON 12 terminals and — the newest addition — the MCON 1.2 terminals, this series ensures complete flexibility with the option to choose between 1-48 position connectors. Featuring flame retardant UL94 V-0 material alternatives, wire sizes of up to 16 mm² and a reduced mating force less than 75N for the 18-position monoblock connector, these products can also be used for vibration at cabin level as well as high power applications — providing the ultimate safety and reliability, alongside overall cost-effectiveness.

UNSEALED INTERCONNECTION SYSTEM

BENEFITS

- Enable design flexibility with a broad range of unsealed, rugged and flexible connectors and a product offering of between 1-48 positions
- Offer additional security with flame retardant V-0 material options (18P and 21P monoblock connector using AMP MCP 2.8 terminals, MCON 1.2 3P, 6P & 16P connector and 1P 90° unsealed connector using PCON 12 terminals)
- Facilitate contact alignment with integrated and separate secondary locking features
- Help prevent mismatch with up to 6-polarization and color key mating configurations available
- Reduce mating force below 75N with new design of the 18P monoblock connector including lever
- Ensure high reliability for long term use with vibration resistance for cabin

KEY INDUSTRIES

The Unsealed Interconnection System can be utilized in trucks and buses, as well as construction, agriculture, and two-, three- and four-wheel ATV/UTV vehicles.

Agriculture

ATV/UTV

Automotive

APPLICATIONS

The Unsealed Interconnection System operates in wire-to-wire, wire-to-board, control unit, bulkhead, in-cabin and fuse & relay box applications.

Wire-To-Wire

Wire-To-Board

Control Unit

Bulkhead

In-Cabin

Fuse and Relay Boxes

MCON 1.2 3 & 6 POSITION CONNECTORS

TECHNICAL INFORMATION

- **Contact System:** MCON 1.2
- **Housing Material:** PA6-GF15
- **Wire Size Range:** 0.22 mm² - 1.5 mm²
- **Temperature:** -40°C to +105°C
- **Protection:** IP 30
- **Flammability:** UL 94 V-0

3 Position
3 * MCON 1.2

6 Position
6 * MCON 1.2

PRODUCT FEATURES

- Increased density utilizing the MCON 1.2 contact
- Stackable connector design
- Simplified assembly with color coding, mechanical keying and wall mounting features
- Contact alignment and retention with integrated secondary locking feature

Stackable connector design provide increased density for stand alone applications.

Make a quick installation from a 3-position to a 6-position connector possible.

UNSEALED AMP MCP 1.5K & 2.8 CONNECTORS

TECHNICAL INFORMATION

- **No. of Positions:** 25 Positions
- **Housing Material:** PBT/ASA-GF30
- **Wire Size Range (with Receptacle Insert):**
 - 7 Position Receptacle insert: 2.5 mm² FLR Max. (7x)
 - 18 Position Receptacle insert: 1.5 mm² FLR Max. (18x)
- **Temperature:** -40°C to +120°C
- **Protection:** IP 30
- **Flammability:** UL 94 HB

25 Positions
18*1.5k + 7*2.8

PRODUCT FEATURES

- Polarized to prevent improper mating
- Mechanical and color keyed
- Integrated secondary lock confirms contact alignment and retention
- Several keyings available for receptacle and tab housings
- Lever mechanism for higher pin counts
- Vibration resistance at cabin level

PCON 12 CONNECTOR

TECHNICAL INFORMATION

- **No. of Positions:** 1 Position 90°
- **Housing Material:** PBT GF10
- **Wire Size Range:** 5 mm² - 16 mm²
- **Temperature:** -40°C to +105°C
- **Protection:** IP 20
- **Flammability:** UL 94 V-0
- **Voltage:** up to 60 V DC

PRODUCT FEATURES

- 90° cable exit configuration accommodates tight spaces
- Perfect for in-cabin, bulkhead and control unit applications
- Dual side-actuated snap-in locks provide an audible “click” for enhanced security
- Cost efficient solution for customers’ high-power needs

CONFIGURATION

1 Position
1 * PCON 12

PRODUCT PART NUMBERS – PCON 12 1-P CONNECTOR

One-Position 90° Unsealed Connector Using PCON 12 Terminals	Part Number
One-position 90° unsealed connector, Code A (red)	1-2308295-1

MONOBLOCK CONNECTORS

UNSEALED AMP MCP 2.8 18P MONOBLOCK CONNECTORS

TECHNICAL INFORMATION

- **No. of Positions:** 18 Positions
- **Housing Material:** PBT GF20
- **Wire Size Range:** 0.75 mm² - 2.5 mm²
- **Temperature:** -40°C to +105°C
- **Protection:** IP 30
- **Flammability:** UL 94 V-0

PRODUCT FEATURES

- Requires a secondary lock to aid with contact alignment
- Reduced mating force below 75 N
- 4 color-coding options available to reduce improper mating
- Fits in existing bulkhead cut-outs and therefore no design changes are needed
- Made out of flame-retardant UL 94 V-0 material for additional safety inside the cabin

AMP MCP 2.8 AND MCON 1.2 33 POSITION MONOBLOCK CONNECTOR

TECHNICAL INFORMATION

- **Contact System:** MCON 1.2 and AMP MCP 2.8
- **Housing Material:** PBT GF30
- **Wire Size Range:** 0.5 mm² - 1.5 mm² and 2.5 mm²
- **Temperature:** -40°C to +105°C
- **Protection:** IP 30
- **Flammability:** UL 94 HB

PRODUCT FEATURES

- Secondary locking feature to aid with contact alignment
- Reduced mating force
- Up to 2 coding options
- Fits in existing bulkhead cut-outs and therefore no design changes needed

ORDERING INFORMATION

36P MONOBLOCK CONNECTOR

TECHNICAL INFORMATION

- **Contact System:** AMP MCP 1.5K
- **Housing Material:** PBT GF30
- **Wire Size Range:** 0.5 mm² - 1.5 mm²
- **Temperature:** -40°C to +105°C
- **Protection:** IP 30
- **Flammability:** UL 94 HB
- **Current Rating:** 20A@23°C

36 Positions
36 * AMP MCP 1.5K

PRODUCT FEATURES

- Secondary locking feature to aid with contact alignment
- Reduced mating force
- 4 color-coding options available to reduce improper mating
- Fits in existing bulkhead cut-outs and therefore no design changes needed

UNSEALED HEADER CONNECTORS

The Unsealed product portfolio offers robust and rugged PCB headers that support low to medium power, high pin counts for wire to board and wire to device applications. Some key application areas include cabin & bulkhead, dashboard & infotainment, door control module, Battery Management System (BMS) and telematics. Headers are available in 90° and 180° variants.

UNSEALED AMP MCP 2.8 90° HEADERS

TECHNICAL INFORMATION

- **No. of Positions:** 6-21 Positions
- **Housing Material:** PBT GF20
- **Mounting Orientation:** Horizontal/90°
- **Termination Method:** Through Hole - Solder
- **Tab Material:** Tin/Silver Plated
- **Flammability:**
UL 94 HB
21P Also in UL 94 V0

PRODUCT FEATURES

- Polarized to prevent improper mating
- Mechanical keyed
- Available in different codings
- PCB mounting option with 90° Pins

MCON CONTACTS

MCON is a series of contact systems commonly used for electrical and electronic applications for passenger cars and commercial vehicles. The contact design meets standardized blade sizes and interface requirements of the automotive industry. All contacts except MCON 0.5 follow the two-piece contact design strategy to separate the electrical from the mechanical performance.

MCON 1.2 CONTACTS
