

A collection of various cable conduits and connectors. The conduits are shown in several colors: black, grey, orange, and white. Some are straight, while others are flexible and ribbed. The connectors are black plastic components of various shapes, including some with multiple ports and others that are simple caps or end fittings.

## CABLE CONDUIT AND CABLE CONDUIT CONNECTORS

TE Connectivity's cable conduit is a high-performance solution for routing and protecting electrical wiring across industrial, commercial, and residential applications. Designed to safeguard cables from physical damage, moisture, dust, and chemicals, it enhances safety, system reliability, and longevity. Cable conduits are a critical link between electrical infrastructure and operational reliability. They protect wiring systems from environmental hazards, mechanical damage, electromagnetic interference, and chemical exposure, while ensuring compliance with stringent safety standards.

### BENEFITS

- Quick installation, low labor costs; easy to use in tight spaces/corners
- Color-coded for clear purpose, fitting different user needs
- Outdoor-ready (long-term reliability, cuts maintenance/replacement costs)
- European/Asian customers: no need to switch suppliers for regional exports
- Double-layer open bellows conduit: easy install/maintenance (double slits), flexible, abrasion-resistant, strong impact strength
- Helps prevent accidental disconnection (protects circuit integrity, less downtime); hides wires for safety
- Customers choose optimal products for their applications.
- Conduit comes with a connector option which helps allow for quick and reliable connections to the panel and save assembly time
- High performance/flexibility: PA6 conduit
- Medium performance/low cost: PP conduit
- Solar market (price-sensitive): HB conduit (meets specs, saves money)

# CABLE CONDUIT AND CABLE CONDUIT CONNECTORS

## FEATURES

- Flexible conduit material
- Different colors option
- Product with CE compliance
- Multilayer
- Secure locking mechanism on connectors
- Multiple flammability option
- UV-Stabilized
- Different material option
- Offer cost, weight and space savings with compact design

## APPLICATIONS

- Robotics
- Warehouse automation
- Semiconductor manufacturing equipment
- HVAC
- Automotive
- Underground and outdoor Installations
- Transportation systems
- Building and construction
- Industrial facilities
- Renewable energy installations
- Data centers

## PART NUMBERS

## MECHANICAL

- Colors- Grey, Black, Orange
- Operating Temperatures – Cable Conduit:
- -40°C to +125°C, (PA6 - Conduit)
  - -40°C to +105°C, (PP - Conduit)
- Operating Temperatures – Connectors:
- 2500400: -20°C to +105°C
  - 2500401: -20°C to +105°C

## MATERIALS

- PA6
- PP

## STANDARDS

- CE
- ROHS

## SPECIFICATIONS

UL Flammability – Cable Conduit:

- UL94-V0
- HB

UL Flammability – Connectors:

- 2500400: UL94 – V0
- 2500401: UL94 – V2
